Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • "I need my loan to be approved as quickly as possible." • "I have submitted all the required documents." • "I want a fair and transparent loan approval process." • "Why does loan approval take so much time?"	THINKS • "Will my income and credit history be sufficient for approval?" • "I hope the bank makes the right decision." • "What are the main factors affecting my loan eligibility?" • "Can technology make the approval process faster and more accurate?"
PERSONA NAME Rahul Kumar <i>(Student / Self-Paced Learner)</i>	
DOES • Fills out the online loan application form. • Uploads required financial and identity documents. • Waits for the bank's approval decision. • Checks loan application status regularly.	FEELS • Worried about possible loan rejection. • Confident when maintaining a good credit history. • Happy when receiving a quick and accurate approval decision. • Satisfied with a transparent and automated loan evaluation process.
